DETAILED ACTION

1. The drawings were received on December 20, 2004. These drawings are approved.
2. Claims 1-18 are allowed over the art of record.
3. The following is an examiner's statement of reasons for allowance:

The art of record does not teach or suggest the fluid lines exert a force on the coldplate, and wherein the force exerted by the fluid lines cancels other forces exerted on the coldplate such that a net force between the coldplate and the device under test is substantially resolved at a vector center of the device under test as claimed in the independent claim 7; or when the coldplate is positioned adjacent to the load frame, the structures engage the receptacles such that the coldplate is free to rotate about an axis perpendicular to the coldplate, but not allowed to rotate about two axes parallel with the coldplate, and such that transverse motion of the coldplate with respect to the load frame is restricted as claimed in the independent claim 13.

It is noted that the reason for allowance of claims 1-6 was indicated in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2829
